DETAILED ACTION

Election/Restrictions

1. Applicant's election of Group II, claims 1-9 in the reply filed on August 1, 2006 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 1-9 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Applicant has claimed a heater "adapted to fit within a cigarette receiving portion of said smoking device", and a base portion having "an interface surface on which said smoking device rests when said heater is positioned within said cigarette receiving portion of said smoking device" but has not positively claimed said smoking device in the body of the claim, so its unclear whether Applicant intends to claim just a dryer or a dryer in combination with an electrically heated smoking device. Clarification is required.
